Christine Rinehart reported on her collaboration with Leslie Lovelace and Tina Stallard to prepare a common set of guidelines, particularly for new CCAC members, to ensure that the committee evaluates course proposals in a similar manner for Core approval. The guidelines are outlined in the "Carolina Core Checklist" document and were distributed to the committee members for their review. There was discussion about key issues related to the committee, including approving Carolina course overlays.

The distinction between the "teaching" and assessment rubrics for the Core was also discussed. The meeting ended with a review of Carolina Core assessment where La Trice Ratcliff-Small was invited as a special guest to discuss the old assessment process, the current process and other assessment related issues.
