

# **BUILDING MY PASSION: MY LEADERSHIP STORY**

This workbook is designed by KPIC to utilize throughout pharmacy school. At KPIC, we believe that one does not sit around waiting for passion to fall in one's lap; one must go out and build it piece by piece.

This workbook is the first step in helping you compile all the various 'materials' you may need to help you begin building your passion.

These materials include leadership assessments, leadership roles, internships, and rotations. We understand that not every student will have the same number of experiences and have included extra pages in the back to utilize as needed.

The provided pages are not prescriptive of how many experiences one should obtain. Everyone's journey to building their passion will be unique to that individual and cannot be compared to anyone else's.

# 7 QUESTIONS TO HELP IDENTIFY YOUR PASSIONS

What sacrifices and struggles are you willing to tolerate? Work isn't fun 100% of the time so identifying what struggles are worth it will help you identify pharmacy fields to pursue.

What activities did you do as a child that you enjoyed that you no longer do? This can help identify passions and unique activities that you may want to incorporate into a job.

What makes you forget to eat, sleep and use the bathroom/shower, etc.? Helps identify tasks you genuinely love doing.

What are you embarrassed to do and why? If you did what you were embarrassed to do, how might it impact your career?

# 7 QUESTIONS TO HELP IDENTIFY YOUR PASSIONS

How are you going to save the world or make a significantly positive impact on the world? (In pharmacy and in general)

If you had to leave the house all day long, every day where would you go and what would you do?

If you knew you were going to die one year after graduating from pharmacy school or a post-graduate training program (aka only have one year to practice as a licensed pharmacist), what would you do and how would you want to be remembered?
